

SALVIA HEATWAVE™ SERIES

COLORS 'Sparkle' (Pink) 'Blaze' (Red) 'Blast' (Salmon) 'Glimmer' (White) 'Glitter' (Purple)

ORIGIN Australia

SPECIES greggii

BLOOM PERIOD Spring to Fall

HARDINESS ZONES 6 to 9

DIMENSIONS 30" x 36"

WATER Low

SOIL Well Drained

GROWING ON Moderate

TEMPERATURES 55-75°F

PINCHING Pinch to Shape

GROWTH CONTROL None

CROP TIMING 1 gallon Container
12-15 Weeks

LINER SIZES 102, 72

AVAILABLE Winter 2010

Heatwave
SALVIA

Developed in Australia, the Salvia Heatwave™ series are bred to perform in hot dry climates. Heatwave's™ are notable for the tight upright habit that does not spread out with age. Heatwave's™ make excellent specimens in perennial borders and are great foundation plants for the low maintenance landscape. A magnet for humming birds and butterflies, these salvias will bloom continually from spring to fall.
